

**Sheer Descent®
Waterfalls**

Sheer Descent® Waterfalls

Sheer Descent waterfalls produce a clear arc of water, projecting away from the pool wall. The flow can be adjusted to create a range of effects from an almost silent, glass like sheet of water to a rushing mountain spring waterfall. Sheer Descent waterfalls are available in a variety of lengths and lip colors.

- Creates a clear sheet of water that descends gracefully to the pool surface
- Injection molded PVC
- Uni-body construction
- Part numbers with letters are special order items, allow up to two (2) weeks delivery

**Sheer Descent®
Extended Lip Waterfall**

Sheer Descent® 6" Extended Lip Waterfalls

Six inch extended lip waterfalls produce the same effect as the standard 1" lip Sheer Descent waterfall, but allow for installation of brick or stone on the face of the raised beam. The soft white and gray lip color waterfalls are easily cut in the field for custom radius curves. When extreme radius curves are required, a Super Radius waterfall must be special ordered from the factory. Metal finish radius falls and fiber ready falls cannot be cut in the field and must be ordered directly from the factory. See the radius cut guidelines for complete details.

- Creates a clear sheet of water that descends gracefully to the pool surface
- Injection molded PVC
- Uni-body construction
- Part numbers with letters are special order items, allow up to two (2) weeks delivery
